ARMSTRONG®

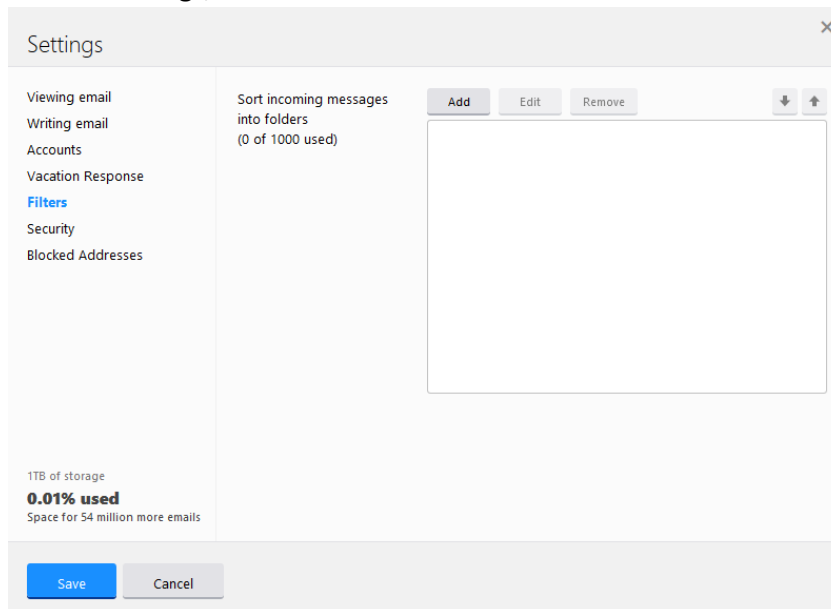

To access my SPAM Web App settings

1. log in to ArmstrongMyWire.com
2. Click **'Email'**
3. *Right-click* on the **Armstrong SPAM Settings Web App**
4. Select **'Change SPAM Filter Setting'**

Log into your Yahoo Mail at <https://mail.yahoo.com>.

1. Click on the **gear menu**. 
2. Click on **Settings**, then **Filters**.

3. Click **Add** and create a filter that matches @ in the sender and delivers the messages to Inbox.

Add a new filter ✕

Filter Name

If an incoming message meets all of these conditions

From	<input type="text" value="contains"/>	<input type="text" value="@ntsd.org"/>	<input type="checkbox"/> Match case
To/CC	<input type="text" value="contains"/>	<input type="text"/>	<input type="checkbox"/> Match case
Subject	<input type="text" value="contains"/>	<input type="text"/>	<input type="checkbox"/> Match case
Body	<input type="text" value="contains"/>	<input type="text"/>	<input type="checkbox"/> Match case

Then move the message to this folder

4. Click **Save**.
5. Make sure that the new rule is at the bottom of the list

1. Click the **gear** at the *top right*, choose **Settings**, then click on **Filters and Blocked Addresses**.

[General](#) [Labels](#) [Inbox](#) [Accounts and Import](#) **[Filters and Blocked Addresses](#)** [Forwarding and POP/IMAP](#) [Chat](#) [Labs](#)

Email Safe List	Limit email addresses that can send you emails.	EDIT
Spam Filtering		COLLAPSE

Enabling the spam filter provides an additional layer of email filtering. When you enable the filter and select "Save a copy of emails marked as spam," any messages considered to be spam will be delivered to your Spam folder. If you do not wish to save copies, all email considered spam will be automatically deleted.

Enable spam filter of my account.

5. Uncheck the box

1. Open Outlook.
2. Click on the **Tools** menu.
3. Choose **Options** from the drop-down menu.
4. Click the **Preferences** tab on the window that appears.
5. Under "E-mail", click the **Junk E-mail** button.
6. Choose "**No Automatic Filtering**", then click **Apply**, then OK to accept the change.
7. Restart Outlook.

1. Select the "**Settings**" tab and "**Spam options**" option in the left menu.
2. Select the **option** button next to the spam filter level you wish to set and click on the "**Save settings**" button.
 - *Do not use spam filter* - if you select this option, no email will be detected as spam and moved to the Spam folder
 - *Low* - if you select this option, only the most common spams will be detected and moved to the Spam folder. This option offers a low risk of marking regular email as spam.
 - *Middle* - if you select this option, the majority of spams will be detected and moved to the Spam folder, but some regular emails may be incorrectly detected as spam.

- *High* - if you select this option, almost all spams will be detected and moved to the Spam folder. This option offers a high risk of marking regular emails as spam.
- *Exclusive* - if you select this option, you will only receive messages from addresses in your contact list and approved addresses list. All other emails will be considered as spam and will be moved to the Spam folder.
